

Success Story

RPA integration with Cygnature to automate signing process

Overview

Our client faced challenges in managing various agreements, including Vendor, Contract, Licensing, and Confidentiality Agreements, across multiple locations. They required a centralized tool for managing templates, automating document creation, and ensuring legal enforceability. The existing manual processes were time-consuming, necessitating a streamlined approach to enhance template usability, facilitate bulk document handling, and provide comprehensive tracking.

Business Challenge

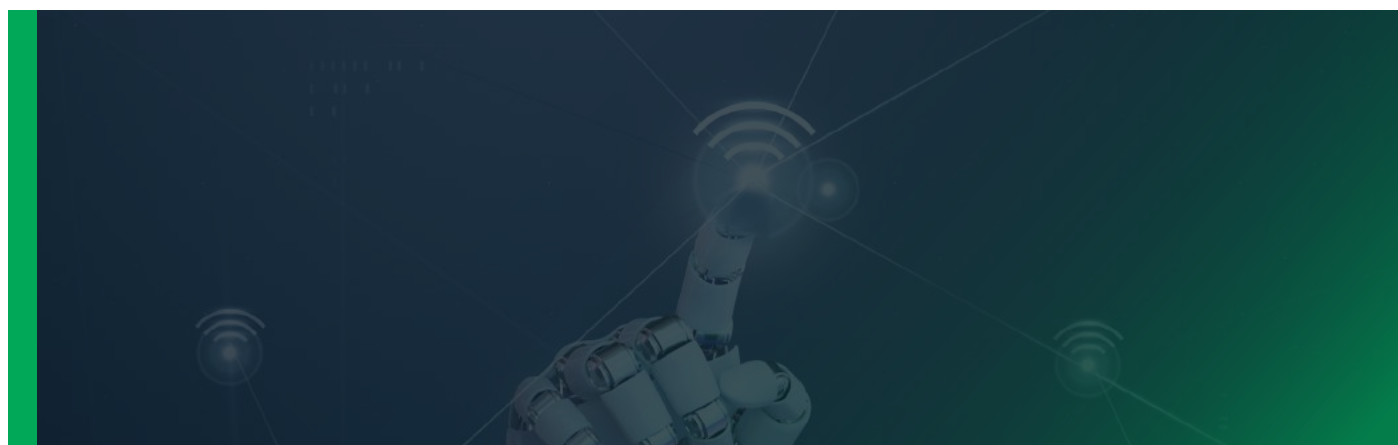

- The client required a centralized tool for managing agreement templates, leading to automated creation and distribution of documents for signing.
- They wanted a specific process for template creation and approval to streamline their operations.
- Enhancing template usability was crucial to reduce the need for creating multiple documents.
- Various types of agreements, including Vendor, Contract, Licensing, and Confidentiality Agreements, needed to be signed regularly with stakeholders.
- The client needed agreements to be generated by different users across multiple locations in India.
- They sought to eliminate the tedious manual process of creating agreements and make it faster and more efficient.
- Different user roles were required to facilitate template upload, approval/rejection, and usage for generating agreements.
- Ensuring the legal enforceability and validity of signed agreements was a key requirement.

Our Solution

- Cygnet implemented a Template creation and approval process to ensure users utilize approved templates for agreement creation and tracking usage.
- Different user sets were allocated for template creation, approval/rejection, and agreement creation using approved templates.
- AutomationWhiz, Cygnet's RPA solution, integrated with Cygnature application to automate template management, agreement creation, and signing processes.
- End users only needed to input necessary details, and the solution automatically generated complete agreements within minutes for signing.
- Aadhar E-Signature was integrated to ensure compliant and legally enforceable signatures.
- Dashboards and reports were provided for users to track details based on their roles.
- Bulk upload feature facilitated replacing variables in templates and creating multiple agreements simultaneously.

Business Outcome

The solution facilitated bulk creation and distribution of agreements to various authorities, enhancing efficiency.

Manual creation of agreements was eliminated, and templates allowed for quick agreement generation within minutes.

Cygnature streamlined the signing process, ensuring legally valid signatures and maintaining a thorough audit trail.

Operations costs associated with the manual process were reduced as a result of the implemented solution.

Overall, the solution significantly reduced the time and effort required for documentation management, previously tedious and error-prone.

Benefits

- Ability to send documents in bulk
- Enhanced process efficiency through automation
- End-to-end automation eliminates manual processes, resulting in shorter turnaround times
- Reduced manpower costs due to automation
- Single template functionality for multiple document signingsEnvironment-friendly processes and lower transaction costs

About Client

Our client, India's No. 1 cement company is the largest producer of grey cement, ready mix concrete, and white cement. Operating across multiple countries with a production capacity of over 116.75 million tonnes per annum (MTPA), the company is renowned for its quality, innovation, and sustainability. It plays a crucial role in urban development and housing projects.

About Cygnature

Cygnature pioneers secure, paperless document signing through its cloud-based SaaS platform. Employing advanced encryption, it safeguards document integrity and authenticity, accessible solely to verified users. With features such as bulk signing, and support for national IDs such as Aadhaar and UAE Pass, Cygnature establishes itself as the industry benchmark for secure digital signing solutions, ensuring efficiency and trust in every transaction.

About Cygnet.One

Cygnet Infotech is dedicated to excellence and is re-evolving its brand identity as CYGNET.ONE to help consolidate its specialized offerings in Compliance transformations, Digital & Quality Engineering, Enterprise Modernization, Data, AI & Analytics Hyper Automation, Test automation, Digital signature, and a myriad of other offerings across Americas, the UK & Europe, Africa, the Middle East, and the Asia Pacific. Through Cygnet Cosmos, our digital transformation framework, CYGNET.ONE empowers organization to achieve business process digital transformation through co-ideation, co-creation, co-innovation, and co-evolution. With a global presence spanning across diverse markets and industries, Cygnet.One serves as a one-stop destination for intelligent solutions, delivering value from ideation to execution, ultimately driving success for clients and partners worldwide.

CO-IDEATE

Co-Ideate for new product development & new market GTM

CO-CREATE

Co-Create technology enabled connected business solutions

CO-INNOVATE

Co-Innovate intelligent solutions with Cygnet launchpad.

CO-EVOLVE

Co-Evolve with a strong continuum of Cygnetians, clients, & partners.
